

VOTE AGAINST

IS A VOTE FOR ACCOUNTABILITY

TIMING—Current DISCRETIONARY sales tax does not expire for more than two years from now. Commissioners arbitrarily spent \$440,000 to use this off-year election cycle to catch voters off guard. You can bet the government employees in Lake County will show up to vote for the \$800 Million of our tax dollars at stake for the next fifteen years. This tax amounts to \$130 per person per year or \$650 per year per family of five in Lake County.

SCOPE—Ordinance and ballot language is expanded to include ‘Quality of Life Needs’ and ‘Other Public Infrastructure’ rather than limited to specific essential GROWTH related road, school and utility projects.

TERM—Current fifteen year term prevents voters from holding officials accountable for project selections and expenditures. Ideally, a four or six year tax renewal term aligning with the election of officials will maximize accountability for voters. In addition, this is the third time this DISCRETIONARY sales tax is being renewed for a fifteen year term. Officials have transitioned from DISCRETIONARY budgeting to dependency on this revenue. The availability of this near-perpetual SLUSH FUND excuses them from doing the hard work of carefully examining how they spend our money.
